Thanks for giving me this opportunity!
I am Satish pawar besically from Osmanabad but currrently
staying at pune.
Education: I am post graduate engineer in Mechanical design from Ahilyabai
Holkar University,
Solapur. Before that i complete my graduation in Mechanical Engineering from
Shivaji university.

Experience: From recently 3 years i works as Software Quality Analyst in
persistant systems.
(Bhageerath, 402 Senapati Bapat Road, Pune 411 016, India).Where we works on
agile. Our sprint
duration is 1 month and we works on one or two modules in a month.In a sprint i
am taking part in
different ceremonies like sprint review, sprint retrospective, scrum and
grooming sessions.

Works on: Where i performe manual as well as automation testing.In manual i am
part of functional
testing and regression testing team.where i write scenarios, testcases review it
and excecute it. Also
i make test summary report of it. In automation we works on JAVA (JDK 18.0.2)
Selenium (4.4.0).We works
on Maven(4.0.0) testng(7.6.1) framework.Where i design POM classes ,TestNG
classes and perfome testing.
Also to run all tests together we run TestNG.XML.

Also i perform Database testing by SQL server and API testing in Postman.

Prorject: I works on e-commerce domain project which works as business to
business and business
to customer model.

Why: I am very glad about my role in my orgnization , i learnt many new things
from it but now i
thing i am ready to take more responcibilities, want to learn new thins thats
why i am swithing.
Also switching workplace help me to motivate myself.

Strengths: My strengths are i am Quick learner, Adopt things quickly,
Punctual,focused. my weakness is
my emotional nature which sometime take me in troubble but i am trying to
overcome on that.

So that is brief introduction from my side if you want some more i am ready to
share with you.
Thank You!
